The American BANKING System
IS
Democracy at its Best

There are some 16,000 American banks, each owned and operated by local citizens. Separate in a sense —yet they are knit together into one great 'system' by the common aim of service. Responsive to the needs of each community, yet they are geared to meet the nation's needs instantly in its hour of crisis. There's nothing like it elsewhere; it's the envy of every other country; it's democracy functioning at its very best.

Aluminum Drive is Getting Results in Appomattox County

Driving full speed toward doing their full duty in the national campaign to round up and give to the defense Program the ALUMINUM metal of America, people of Appomattox county this week are showing a wonderful spirit of patriotism!

The ALUMINUM BIN, located between the Bank of Appomattox and Virginia furniture store, has been filled with scrap aluminum on each of the last three days. And many homes in town are awaiting the truck to house to house canvas today and tomorrow.

Especially gratifying has been the response of the rural residents in Appomattox county. Many have driven as high as fifteen miles to bring their gifts of aluminum to the bin here.

The greatest conceivable variety of articles containing aluminum has found its way to the bin. It is estimated that well over 500 different articles have already been given, and the aluminum given has grown in some with each passing day. Monday's collection was rather light but the bin was filled Tuesday. And as the volume and weight showed a big increase, and today the bin was nearly full by noon. It is emptied each night, but Saturday all the aluminum given during the week will be brought from storage and placed on exhibit.

The first of next week, the total amount of aluminum will be trucked to a concentration center designated by the National Defense Council, and turned over to the government.

Every state in the United States is putting on this aluminum drive in order to get the hundreds of millions of pounds of the all important metal to be melted down into the defense program. The method of handling the disposal of the aluminum is simple. It is carried to smelters who pay the scrap price to the government and in turn resell it to manufacturers of airplane and other government contracts. No profit is made on the transaction. It is simply an all patriotic gesture on the part of the American people to get the aluminum needed for the defense and for the protection of our country.

Stuart Farrar reported today that Pamplin and vicinity will come up with at least 200 pounds of aluminum. He is making the canvas in that section, and urges the people to leave aluminum in the store of Mrs. Baldwin if the truck misses calling on them.

"Nine people, retired people, rich people, poor people, children, and seven people, families with sons already in traing camps, those who haven't yet been called, town people, farmers..... ALL ALIKE are uniting in this practical display of patriotism!

Winston Churchill said: Give us the tools and we will finish the job! Okeh, Mr. Churchill, give us the job and we WILL furnish the tools!

If you haven't done your part yet, you have until Saturday night!

Mrs. Plunkett Had Reunion

On Saturday night and Sunday, Mrs. J. S. Plunkett had with her for the first time in 28 years her six sons, G. D., Paul P., Dick and Tom, of West Virginia, and Jones of Vinton, and Clifford, of Roanoke. Monday afternoon, Mrs. Plunkett attended the burial of her cousin, Miss Ethel Cawthorn, the daughter of Mr. Sam Cawthorn, of Cub Creek, and in this home she was surprised to see her grandfather's clock. It was too tall for the shelf, and had stood on the floor for over 100 years. The old home was burned the year of the Exposition at Jamestown and this clock was saved by a hero, a grandson of Mrs. Eliza Cawthorn, who ran in as the walls were falling and saved it.

After a short trip the young couple will make their home in Lynchburg.

SEEK ENROLLEES IN CCC

Young men enrolling in the Civilian Conservation Corps during the enrollment period ending July 31, will be bigger in every way nine months hence, figures revealed today by James J. McEntee, CCC Director, indicated.

The prophecy is based on a past performance record unearthed by a two-year survey of 101,856 white enrollees by the Surgeon General's Office.

Today's composite enrollee, who is 18 years old, will spend nine months acquiring benefits of CCC camp life and when he goes back to civil life or into the Army he will be 10 3-4 pounds heavier and a half-inch taller.

The study further discloses that of rural enrollees respond more amply to the physical benefits of CCC environment than do their buddies from the city, increased weight in this class being 13.7 pounds as against 9.83 pounds for the urbanites. Also, the boys from the country areas appear to grow taller during their camp service.

Strange Things Happen!

The unexpected always happens, they say..... but who in the world would have thought that two parties setting out from Appomattox to drive to California, leaving here a week apart, would meet up with each other in Flagstaff, Arizona!!

Last Saturday, July 19, Dr. and Mrs. Clyde G. O'Brien, en route to the West Coast stopped off in Flagstaff, Arizona, for a bit to eat. Looking out of the restaurant window, they beheld Misses Jesselyn and Annie Hancock, also en route to the West Coast from Appomattox. News of the unexpected crossing of paths so far from home reached here this week. .....You never can tell what will happen in this strange world.....

Turkey Gobbler, Turkey Gobbler, what makes you act that way.... Nature was proceeding in its usual course at Hotel Appomattox this week. Out in the barnyard, a guinea hen was setting, on a nest of some 15 guinea eggs....which was as it should be. But four days ago, a full-grown Turkey Gobbler decided that things are done differently now, and pushed the guinea hen off the nest, and took over the duties of hatching the eggs. Ours, we double checked on it, saw it with own eyes yesterday!) And take our word for it, that Turkey Gobbler means business about his strange job. You can tell what will happen in this strange world.....

Soldiers Quartered Here on Surrender Grounds Wed.

W-ll sir, it was well worth one's time to drive out to the Appomattox Surrender Grounds last night, and inspect the overnight camp of Co. A, 50th Quartermaster Bn., U. S. Army, from Fort Story, Va. The Company, with 15 trucks and trailers, arrived yesterday afternoon, and departed early today.

The officers of the Company were most courteous in showing the outfit to visitors. They camped on an open field in the Park Service area and the men selpt in pup tents. The soldiers were drafters from Pennsylvania.

The writer was introduced by the commanding officer to one of the draftees. Emery Eichenbaum, who had an amazing life-story to relate.

Eichenbaum, a handsome chap of 27 years, arrived in America last fall from Czecho-Slovakia. His parents had come over to America some years before the war, but Emery couldn't come with them for the reason that he was in the Czech Army. He served several years in the Czech Army, until it was demobilized when the Germans moved in 1939. Emery immediately began efforts to get to America and told a hair-raising story of jumping from one Balkan country to another, and seeing a bit of the Greek war.... and at long last sailing from Lisbon, Portugal. He got here just in time to register last October, and was called into the American Army. His officers say he is an excellent soldier which is not hard to understand, because the Czecks had one of the best-trained armies in Europe.

America is on the march....!

The membership of Liberty church extends a cordial invitation to the public to worship with them each evening during this meeting and to share in the blessing they feel Dr. Kinchloe will bring.

To Combine Chapters of U. D. C. Here

The Appomattox Chapter of the United Daughters of the Confederacy met Thursday in the home of Mrs. Walter W. Scott. Miss M. Annas Jones, president, had charge of the meeting. The salute to the United States and Confederate flags followed the ritual and prayer. The organization voted to invite the members of the Robert Edward Lee Chapter to join the Appomattox Chapter, as the former membership of the Lee Chapter had decreased to such an extent that it was no longer able to function in a satisfactory manner.

The program consisted in the reading of her latest prize essay, Baltimore, Maryland,' by Mary Louise Gills, and a quiz on United States history by Mrs. W.W.Scott. This was followed by a piano solo by the young daughter of the hostess, Miss Nancy Stuart Scott. The hostess served a delicious iced course assisted by Miss Scott and Shirley Morris. One visitor was present, Mrs. Helene Welch.

The August meeting will be a picnic at Holliday Lake.
